5. El Cercle

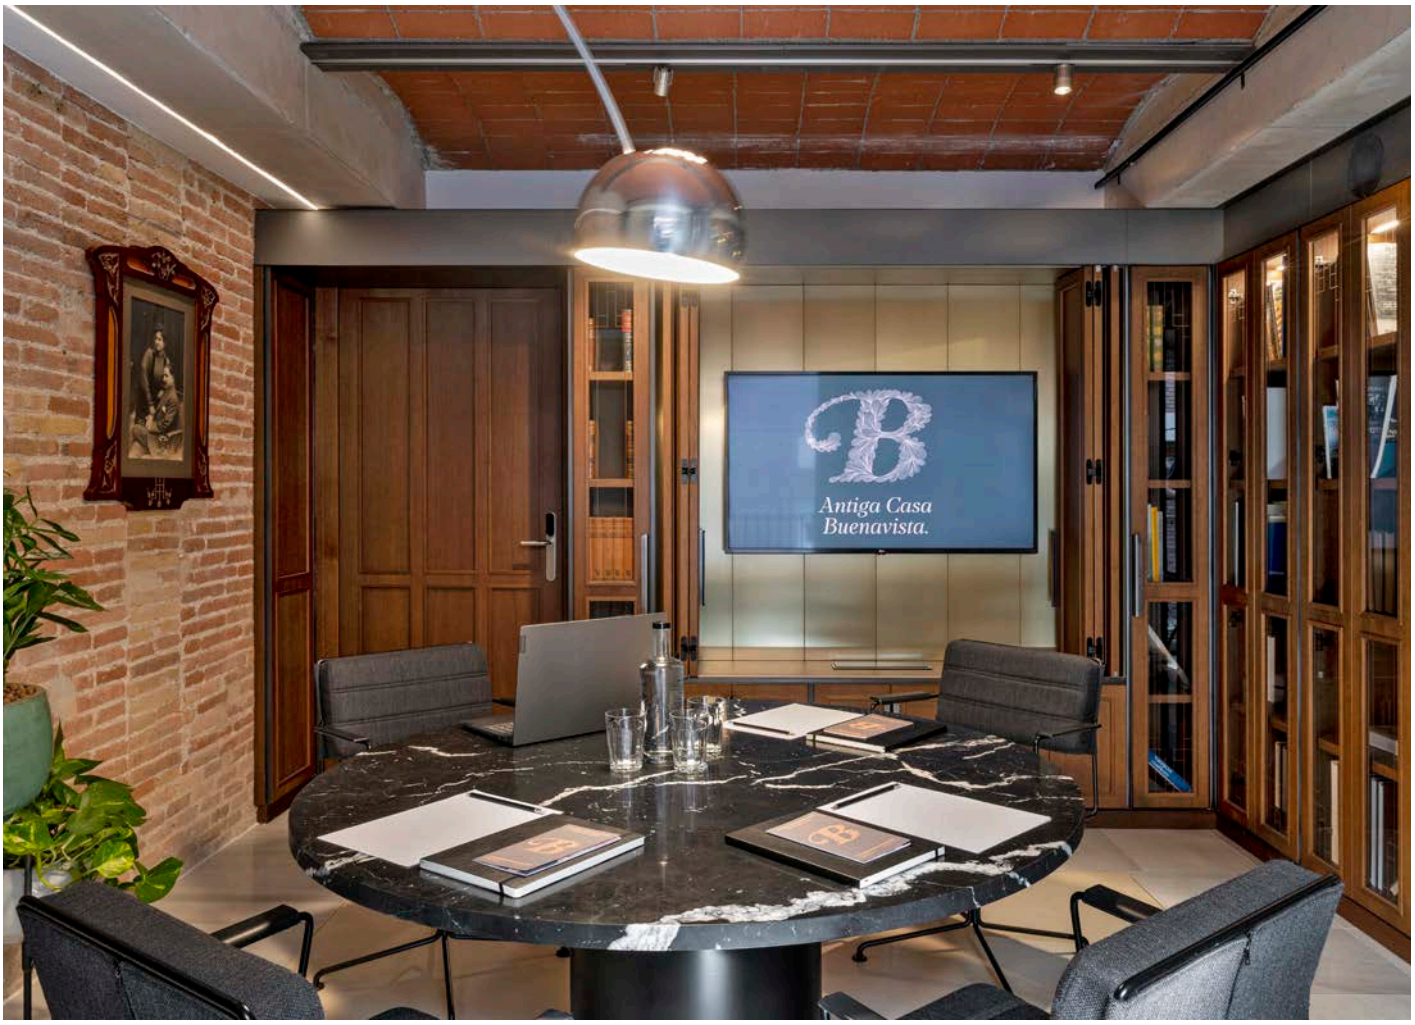

Get together in the most original environment. The Cercle is a space reserved for meetings of all kinds: face-to-face, virtual, etc. Also for the sharing of projects in which different collaborators intervene. At El Cercle you will be able to attend to special clients, carry out acts to sign agreements or initiate commercial opportunities for your business. It is also suitable for private lunches and dinners. Its name is due to the round table that fills the space, alluding to its shape and also in a circle as a small group of people who meet. The Cercle maintains the sophisticated tone of the rest of the rooms, as well as its warmth and familiarity.
